

NORDIC WATER 2012

XXVII Nordic Hydrological Conference

13-15 August 2012, Oulu, Finland

Call for Abstracts

All about Hydrology

The 27th Nordic Hydrological Conference NORDIC WATER 2012 is all about hydrology in a wide sense. The main theme focuses on

Catchment restoration and water protection

The subjects will revolve widely around the main theme with oral and poster presentations, and special workshops.

The conference promotes exchange of experiences from hydrological research and practice. As a hydrologic gathering, the main goal is to identify, set-up and strengthen collaborations, leading to real partnerships between researchers, decision makers and managers of water resources.

Conference Venue

NORDIC WATER 2012 will take place at City of Oulu, Finland, a lively university city in Northern Finland with 140 thousand inhabitants. Oulu combines Northern hospitality, nature and culture with modern technology. It is considered one of Finland's hot spots all year around but specially during the summer. Surrounded by water and sceneries of amazing natural beauty Oulu has something to offer to all.

Conference Themes

The main theme of the conference distributes in subthemes of:

- Hydropower, river engineering and the environment
- Climate and hydrology
- Cold climate hydrology
- Groundwater systems
- Land-use, hydrology and water quality
- Catchment and river restoration
- Ecological and hydrological effects of catchment restoration
- Global change, water resources and ecosystems
- Modelling, methods, and practices in hydrology
- Management, decision support and knowledge uptake

Conference Tours

The post-conference tours will introduce the participants Finnish hydrological research about bogs, groundwater deposits, long-term monitoring and water resources management. The tours will also offer possibility to adventures.

Chair of the Scientific committee

Prof. Bjørn Kløve, University of Oulu, Finland.

Abstract Submission

The papers must not have been previously published or submitted elsewhere. Only one page abstracts will be accepted in the conference proceedings book.

All writers are strongly encouraged to submit their full papers to be published in a Special Issue of the International Journal **Hydrology Research**.

Important Dates

- October 1, 2011 Registration and abstract submission opens
- March 15, 2012 Deadline for abstraction submission (extended)
- April 1, 2012 Notification about acceptance of abstracts
- June 1, 2012 Final programme
- August 13, 2012 Conference begins
- August 16, 2012 onwards Post conference excursions

Grants and fee reductions

Student and you scientists grants and fee reductions are available. Read more at <http://nhc2012.oulu.fi/registration.htm>
