

## Catchment Restoration and Water Protection

### Subthemes

- Hydropower, river engineering and environment
- Climate and hydrology and cold climate hydrology
- Groundwater systems
- Land-use, hydrology and water quality
- Catchment and river restoration, ecological and hydrological effects of restoration
- Global change, water resources and ecosystems
- Modelling, methods, and practices in hydrology
- Management, decision support and knowledge uptake

### Important dates

- Registration and abstract submission starts in October 1, 2011
- Deadline of abstract submission February 1, 2012
- Notification about acceptance of abstracts April 1, 2012
- Conference dates August 13-15, 2012
- August 16, 2012 onwards Post conference excursions
